## Student satisfaction survey Result Analysis

A survey of student satisfaction was conducted during the months of April and May 2024. All students enrolled were emailed an invitation to participate in this online survey. Participation was voluntary, the survey was implemented online, and respondents were ensured confidentiality.

After completion of this online survey, some of the suggestions that were of utmost importance were considered and fulfilled by the college. For this following points were considered

- Academic calendar
- Class size
- Personal security in college
- Safety in Science laboratories
- Availability of computers when you need them
- Quality of instruction in major field
- Course content in major field
- Classroom facilities

More books were purchased for the college library. As per the students demand some reference books were purchased. To fulfill students' demand more study tours were organized. The college provided stationary and books to poor and needy students. Each department encourages students to get an experience of what they are exactly studying in the books. For instance, the theories learned in the classroom are practiced and done in science laboratories. To meet this demand more laboratory equipments were purchased as number of admitted students were enhanced. Safety measures in the science laboratories were updated. CCTVs that were not functioning properly were repaired.
